

EFI and Fiery, LLC, Reach Agreement on Fiery Acquisition of Inèdit Software

Acquisition enables each company to focus on their core competencies while continuing their long-term relationship for the benefit of their respective customers and markets

LONDONDERRY, NH, November 12, 2025 – Electronics For Imaging, Inc. (EFI™) today announced that it has signed an agreement for Fiery, LLC, to acquire all interests in Inèdit Software, the leading RIP and color management software company serving all brands of digital textile printers worldwide. Inèdit's software products, including neoStampa, neoTextil and neoCatalog, serve the digital textile and specialty printing markets, and will enable Fiery to broaden its suite of solutions targeted at those markets. EFI Reggiani will continue its strong working relationship with Inèdit as an OEM partner.

“Fiery is a key OEM partner for EFI, supplying RIPs and color management tools for our packaging and display graphics businesses,” said Frank Pennisi, EFI's CEO. “With this transaction, Fiery will now support our textile business as well, enabling EFI to focus on its core businesses of systems, production software, and ink. In addition, as part of Fiery, LLC, Inèdit will be able to take advantage of additional growth opportunities. We believe this transaction brings strong benefits to both companies while ensuring continued availability of software products that are important to the textile printing industry.”

Fiery plans to continue with the leading Inèdit brand as an independent product suite, supporting current and prospective partners and customers with its strong software development capabilities and deep understanding of the digital textile printing industry. Financial details and a timeline for completion of this transaction are not available at this time.

About EFI

EFI™ is a global technology company, leading the worldwide transformation from analogue to digital imaging. We understand our customers want breakthrough technologies to lead them through their digital journey. That's why we're passionate about driving their business growth with a scalable portfolio of products, solutions, services, support, and world-class partnerships for the manufacturing of signage, packaging, textiles, ceramic tiles, building materials, commercial print, and personalized documents with a wide range of printers, inks, digital front ends, and workflow software. They work together to increase profits, cut costs, improve productivity, and optimize efficiency – job after job, year after year. We are devoted to our customers. And we definitely believe we have the right people, technology and experience to help them achieve their business goals. (www.efi.com)
